COURSE DESCRIPTION - HTAD COURSE # 2 (ARENA TRIAL) DUCKS, SHEEP AND CATTLE

COURSE #2

1. Gather: The stock are let out at the repen gate and allowed to settle. In HTAD III, the handler remains at the post while the dog is sent from there to gather the stock. In HTAD II, the handler may leave the dog at the handler's post and move to a point approximately halfway between the post and the stock, then send the dog to gather the stock. In HTAD I, the handler may leave the dog at a point approximately halfway between the post and the stock and move to approximately 15 ft. from the stock, then send the dog to gather the stock. At all three levels the stock are brought to and around the handler's post, on the side between the post and the Y chute. The gather ends when the stock have gone just past the handler's post. The course then proceeds as indicated in the description.

2. Drive: The stock are taken South between the West fence and the freestanding pen, then around the pen to a point just in front of the pen gate. Handlers at all levels may accompany the stock to this point. The stock are then driven to Obstacle 1. HTAD III handlers must remain at the position in front of the pen while the stock are driven to Obstacle 1. HTAD II handlers may accompany the stock and dog to a point halfway to Obstacle 1, then must remain there for the rest of the drive. HTAD I handlers may accompany the stock up to the entrance of Obstacle 1. The drive ends when the stock reach a point 10 ft. in front of Obstacle 1. 3.

3. Obstacle 1 :The stock are taken through the Y chute. HTAD III and II handlers remain at the designated locations until the stock have cleared the Y chute. HTAD I handlers remain at the

entrance of the Y chute until the stock have cleared it. Obstacle 1 ends when the stock have cleared the Y chute.

4. Obstacle 2 Upon the stock exiting the Y chute, the stock are taken through the freestanding panels. HTAD III handlers must remain behind a handler's line that runs the width of the arena even with the handler's post until the stock have cleared the panels. HTAD II handlers must stay on the post side of the handler's line (which runs across the width of the arena, even with the outside edge of the panel that is nearest the center of the arena) until the stock have cleared the panels. HTAD I handlers may accompany the stock up to Obstacle 2, but should not precede the stock through the obstacle. Once the stock have gone through the panels, handlers are free to move. The stock are then turned to the left and taken to the pen; Obstacle 2 ends when the stock have cleared the panels.

5. Obstacle 3 The stock are penned in the freestanding pen. Scoring for the pen ends when the pen gate is closed.

6. Hold The animals are taken to the hold area. The stock is settled and briefly held in place. There is no required position for handler or dog. The judge signals the end of the hold/settle. HTAD I and II handlers then take the stock to the repen. HTAD III handlers proceed with the sort.

7. Sort The sort is done by HTAD III handlers only. The stock is moved to the designated area, which depends on the type of sort being done. The sort on Duck and Cattle will be a gate sort and on Sheep Ribbon-removal. The sort ends when the gate is closed on the sorted animals, or when the ribbon has been removed.

8. Repen The stock are taken to the repen and held a short distance off the gate while it is opened, and then are repenned. When a gate sort has been used, the animals that had been left out in the arena are repenned. The run ends when the repen gate is closed after the last animal has exited the arena.

Time allowed is 10 minutes for level I and II, 12 minutes for level III on ducks and sheep. On cattle for level I and II it is 14 minutes and level III it is 17 minutes.
